

Weekly Update

Group Name/number: _____ **Group 6** _____

Date of update (this will always be a Tuesday): _____ **2020/5/25** _____

Item

1.	<p>What our group has done since last week:</p> <p>After the peer reviewing in week 12, we get the feedback on both user aspect and system aspect, which provided some issues and mistakes we missed before. So, in week 13 we listed all the problems the system has using Leangoo and fixed some of them. And we also perfect few functions that are not finished before such as the Calendar. We discussed about the final report and the presentation video, and made a draft plan.</p>
2.	<p>Questions, issues?</p> <p>1. Some of the functions in the system are not finished yet during the peer reviewing but now finished, however the scores we got is too low because of it. So, is that score judge our results or it is just a reference?</p> <p>2. About the final report, in this draft we may have some information that now is useless. In the PPT you only consider how to add new information, so if we want to delete something what should we do?</p>
3.	<p>We would like feedback on...</p> <p>1. We want to get a detailed requirement for the final report and the video presentation, including the necessary content for the document, the annotations needed for adding and removing, the specification of the video and other basic contents.</p> <p>2. About the final grade, we want to get a detailed document to show us how to get more scores so that we do something with a guidance rather than we are confused with the scores.</p>
4.	<p>What we plan to do this week:</p> <p>Next week we need to continue solve all the problems that they found before. The final report will be updated because of those changings. And we plan to prepare the video this week, including the video recording of the pages order, the presentation speech document and so on.</p>
