Weekly Update

Group Name/number:_____Group 6_____

Date of update :_____April 27, 2020 Monday_____

	Item
1.	What our group has done since last week: 1. We deploy the web application into the cloud server so that it can be accessed by the IP address：182.92.57.99 now. 2. We search and learn the knowledge about the adaptive function of UI pages in different clients such as smart phone or pad. 3. We have improved the operation mode of employees in the appointment management interface, such as dragging directly on the calendar.
2.	Questions, issues? 1. What is the specific meaning of reliability and how should we perform it?
3.	We would like feedback on… 1. We would appreciate it if we could get feedback on our issue. 2. We would like feedback on the progress of the project , if we are falling behind or we are doing well.
4.	What we plan to do this week: This week we will focus on the function of the online chat between client and employee. What's more, we will try to implement the adaptive function so that the web pages can be seen correctly in different sizes devices. In addition, we plan to write the documentation.
